

NAUTIC CLEAN®

P 13

High cut effect <⊖>
Silicone free <⊖>
Glossy finish <⊖>

pH
9

PRO-CUT

Properties

Professional polish, new generation, based on abrasive **POLYGRAD™** micro-crystals. Designed for heavy cut, **PRO-CUT** is suitable for polishing dull and chalky gelcoats and paints.

Instructions for use

Apply to the surface to be treated with a brush or with the polisher turned off. Work by zone. Using the polisher with a hard foam, apply to the surface to be treated until the desired result is obtained.

Can also be applied manually with a microfiber. However, we recommend the use of the polisher.

Advice: afterwards we recommend applying the following products, **P12 PRO-MEDIUM** and **P11 PRO-ULTRA FINE** for a perfect high-gloss finish and high protection.

Technical specifications

Physical state: viscous **colour:** white **pH:** ca. 9 **density:** ca. 1,24

Storage: keep tightly closed and protected from cold, frost, UV rays and heat in a ventilated place.
