## TEAK STEP 1

### Properties

Formulated and tested in our laboratories especially for teak. **TEAK STEP 1** is a very effective alkaline descaling cleaner for the restoration and maintenance of teak. Its very wetting and penetrating function makes it possible to loosen and eliminate even very stubborn dirt, black dust, dried mold, greasy stains.

For a perfect restoration, we have developed a two-component system with **TEAK STEP 2** specific teak renovator.

### ADVANTAGES:

- Very easy to use.
- Specially formulated for the maintenance of teak.
- Does not alter seals (laboratory tested).
- Does not alter stainless steel (laboratory tested).
- Plant-based surfactant.
- Does not contain phosphates, NTA, chlorine.
- Perfect restoration of teak with in finishing **TEAK STEP 2** Renovator.

### Instructions for use

Teak restoration.

**Dosage:** 1 part **TEAK STEP 1** for 3 parts water. Spray or spread with a soft brush the surface to be treated, rub in the direction of the fibers and leave to act for 10 minutes. Do not rinse. Then apply **TEAK STEP 2** sobering up by spreading with a clean brush. You will notice that the teak revives as **TEAK STEP 2** is spread. Rinse by rubbing with a deck brush so as not to damage the fibers of the teak.

### ATTENTION:

Do not apply on aluminum and do not let **TEAK STEP 2** dry on teak. We recommend wearing protective clothing: gloves, boots, coveralls, eyeglasses.

**Routine maintenance:** 20ml in a bucket of water, rub then rinse with clear water.

### Technical specifications

**Physical state:** liquid **colour:** colourless **pH:** ca. 13 **Density:** ca. 1,02

**Storage:** Keep tightly closed and protected from cold, frost, UV rays and heat in a ventilated place.

**Environment:** The surfactants contained in this preparation comply with the criteria of biodegradability as defined in Regulation (EC) no 648/2004 on detergents.
